JOIN THE NATIONAL MASS MOVEMENT TO KILL THE BILL !

Nationwide people from every walk of life are standing up against to say - **we will not leave anyone behind: and we must do it together.** Police already abuse their powers, from racist negligence and brutality to violence against women at vigils and in their care – yet the government plans to give them more in the unnecessary Police, Crime, Sentencing and Courts Bill legislation.

Routinely used to harass and terrorise young Black men, the Bill **expands racist Stop and Search powers** meaning police could stop a person without suspicion and criminalise people for even trying to question why they are being stopped!
y-stop.org stop-watch.org for more on S&S

In a **violent attack on Gypsy, Roma and Traveller communities** the Bill further perpetrates state discrimination and criminalises their way of life. Even police say they don't want this!

As well as increased trespass laws, the Bill gives the police **dramatically increased powers to crack down on the right to protest** and gatherings for being too loud, “noisy”, or literally even “annoying”. We must fight for our right to speak out against injustice - we must not be silenced!

The Bill will **silence families seeking justice** against police violence, and **uses 'protecting' women to further weaponise a justice system** that already perpetrates inequality. It will affect everyone from those on a countryside walk to those not wanting their data more shared and most impact **overpoliced communities and those facing police persecution** like Black people, sex workers, migrants, working class and Disabled people.

If we stand together then **we can #KillTheBill just as the Poll Tax was abolished!** We will fight for the total rejection of the Bill from parliament to the streets - and **we need everyone in this fight.**

**AS ASSATA SHAKUR SAID. WE MUST LOVE AND SUPPORT ONE ANOTHER!
CARE FOR YOURSELF AND SIBLINGS BY KEEPING AS SAFE AS YOU CAN.**

Wear a mask. Covid laws restrict your rights to protest. If you are given a fine (Fixed Penalty Notice), seek legal advice before paying. You have the right to silence when asked by police why you are outside, but they have used this to excuse removing people. Please see the Liberty full guide
